SHINING MOMENTS

# SIRIUS' BATTERY HOLDERS

Being a brand commits. That is one of the reasons why we at Sirius do our best also to integrate the battery holders as a part of our products.

Having the battery holder as an integrated part of the product makes the batteries less visible and adds exclusivity to our products. Sirius' shiny and uniquely designed battery holders thereby become a part of the decoration and make decorating functional as well as beautiful.

We have made it easier for you to identify the battery operated items in our assortment. Every time you find this icon, you will find a battery operated light decoration.

"Sirius is not just a company name, but talented people behind as well as the brightest star in the sky. Every year our assortment is put together carefully and I hope that our design and quality lives up to our objectives of creating happiness and joy.

When you turn the pages of our catalogue, you will find products that make a difference. We are going for design and functionality of the future as well as high-quality packaging that one can only be proud of. Thank you for taking your time to view our new Sirius assortment."

Stig Gerlach, CEO

## OUR PHILOSOPHY

Light has become a substantial part of most people's interior decorating. We strive to create the right atmosphere, and light is an important factor in the choices we make.

Quality, experience and trust has made Sirius a well-known brand on the European market since its establishment in 1971, and through continuous product development and constant quality control Sirius has become a market leader in lighting. Through time Sirius has specialized in decoration lights for private homes as well as in professional lighting for the retail market and both product lines have been developed far beyond their traditional functions.

Sirius is represented at several trade fairs in Europe throughout the year, where we showcase our assortment as well as ideas and inspiration for interior design and shop design.

Sirius attaches great importance to inspire and to be the creator of new styles in home- and shop decorating. Light is a lifestyle product and Sirius is in the front, showing how easy it is to express your own individual style and create your own shining moments with Sirius.

In Allerød, situated north of Copenhagen, we have 3000m<sup>2</sup> offices and showrooms as well as a 9000m<sup>2</sup> warehouse where we work with light.  
You can also find Sirius on Facebook.

## SIRIUS' SUPPORT AND CARE

Sirius strives to be your preferred supplier of light decorations as well as we continuously focus on developing our position as the most innovative and creative producer of lights.

**Elskhjertet.dk** Having established our position as a **HJERTEFORENINGEN** trustworthy and fair collaborator, we continue to serve and support our customers as well as good causes, being an official sponsor of TV2 Hjertegalla by the Danish Heart Foundation.

## GREEN ENERGY MAKES SENSE

Sirius takes great concern in designing products which have as little impact on the environment as possible. You can find the Green Energy label on most of our products, giving you the best guarantee for environmental care and sustainability. A product certified with the Green Energy brand saves up to 90% electricity compared with traditional light decorations. To indicate the use of green energy and environmental care, we supply our outdoor light chain systems with a green light in the first LED as an extra feature.

Welcome to Sirius  
Stig Gerlach  
CEO

# SIRIUS CHRISTMAS

## INTERIOR

Here you will find a beautiful and vast assortment of Christmas light decorations in every form, material and colour for a magical, joyful Christmas. Glittering glass items, classic ceramic elves, fine metal and high-quality acrylic items, stylish products decorated with delicate wires, tiny twinkle lights, pearls, leaves and flowers – many of which also can be enjoyed all-year round.

Page 4 – 63

## EXTERIOR

Light up the darkness and ease the cold weather with outdoor light decorations, spreading a warm and homely feel. Decorate with nets, curtains, icicles, ice crystals, frosty flowers, Christmas tree lights, rope light reindeers, lanterns and cute acrylic animals as well as many strong, good quality light strings for all kinds of weather.

# DINA

Dina is the name of Sirius' new range of glittering Christmas light balls with white and silver decorations.

The beautiful light balls can be placed everywhere - use the silk ribbon and suspend Dina from the ceiling, the window frame or from a decorative branch. Dina light balls all have Sirius' specially designed metal battery holder including batteries that last all Christmas.

## GOLDEN LIGHT

Decorations in gold and silver metal with battery lights.  
Battery included. Design by Marianne Bjarløv.

The battery lights for Golden Light look exactly like real tea candles with their lifelike look of a flickering flame. In this way, they can be used anywhere at any time without the usual hazards of a burning flame. Hence, the Golden Light decorations can be used in nursing homes, day cares, hospitals, schools and other institutions as well as in your home around children and pets. The usual annoying effects of smoke, soot and hazardous particles will also be avoided and promote as such a healthy indoor climate. Thereby, the decorations can also be enjoyed by asthma sufferers.

# USE THEM EVERYWHERE!

Minna, Puk and Lone look exactly like real tea lights with their lifelike look of a flickering flame. The same goes for Vita and Venus, LED pillar candles made of real wax and with a soft waving light. This makes them useful in places where you

would normally avoid burning candles due to fire hazard. By using battery operated lights you also avoid the usual annoying effects of smoke and soot, and as such they can be enjoyed even by asthma sufferers.

# CHRISTMAS OUTDOOR

Light up the darkness and ease the cold weather with outdoor light decorations, spreading a warm and homely feel. Decorate with nets, curtains, icicles, ice crystals, frosty flowers, Christmas tree lights, rope light reindeers, lanterns and cute acrylic animals as well as many strong, good quality light strings for all kinds of weather.

# EASY-LINE

Complete system for light decorations  
(24V with transformer)

- **SAVE UP TO 60% OF NORMAL POWER CONSUMPTION**
- **UP TO 50,000 HOURS OF LIGHT**
- **CONNECT UP TO 400 OR 800 LEDs**

With Easy-Line light decorations from Sirius you can extend your system every year. Get started with Sirius Easy-Line Start set, which can be extended with up to 400 LEDs – or start with a net and a transformer. Connect light chains, nets or ice crystals by the connector and take your lights in different directions over windows or shrubs – all on just one cable.

The only limit is that you may only use:

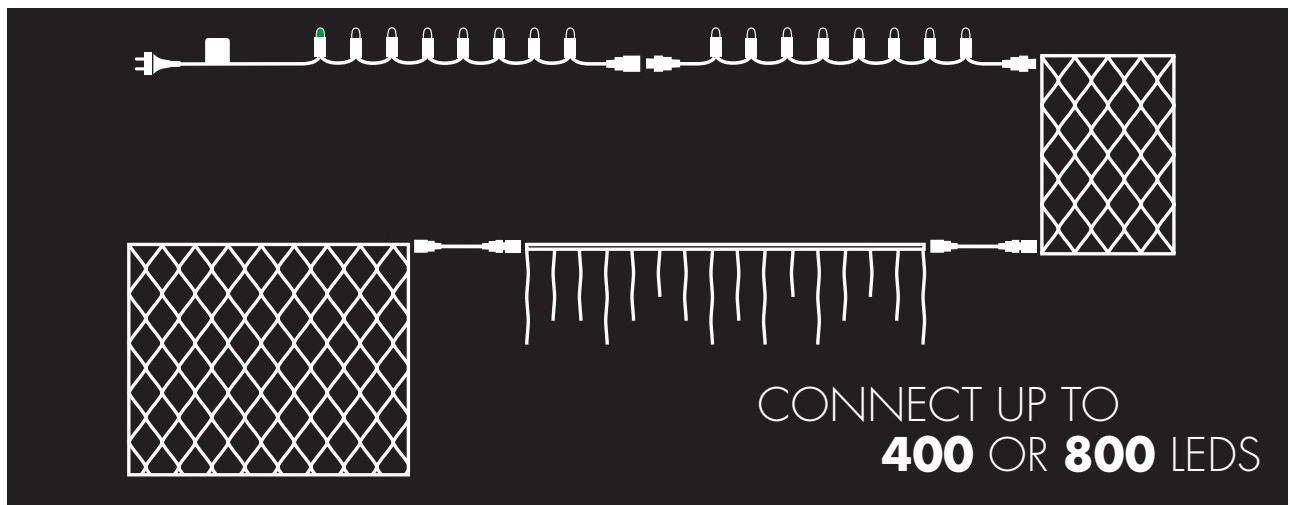

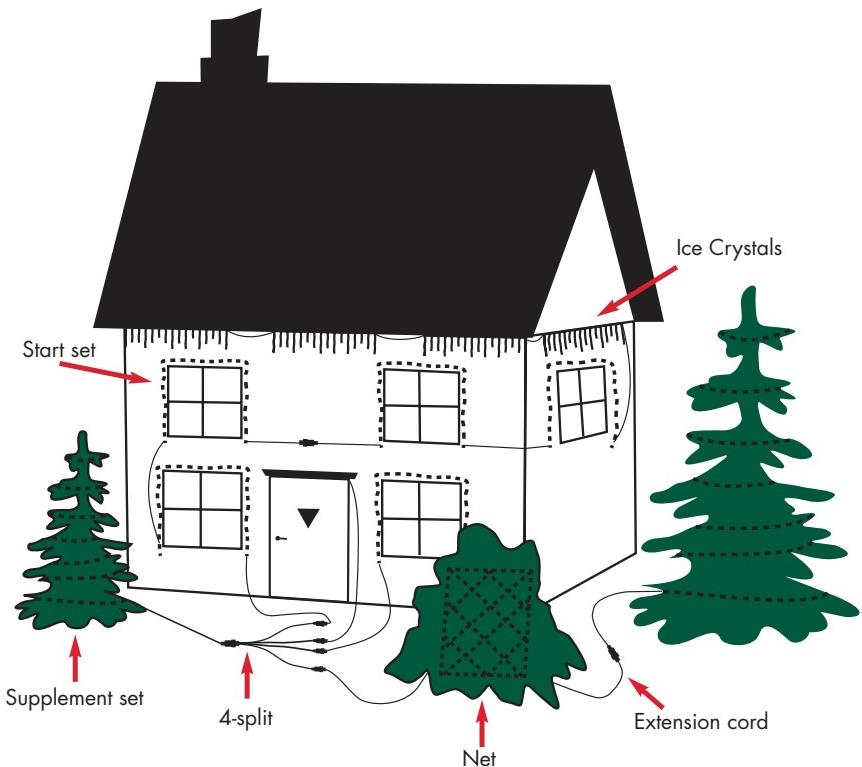

**50 to 400 LED lights with a 30 watt transformer.**  
The 30 watt transformer is included in the start set.  
(Can also be bought separately)

**50 to 800 LED lights with a 60 watt transformer.**  
(Is only sold separately)

## EASY-LINE

Extendable 24V system.  
Begin with the start set and extend the light as you like up to 800 LEDs. By using the 4-split connector you can add ice crystals, nets or supplement light chains.

## EASY-LINE

Easy-Line now also comes in a **cluster light** version for a more voluminous group of twinkling lights. Easy-Line cluster lights can be draped as garlands or used for decoration anywhere a fuller and more abundant group of light is desired. Easy-Line Cluster lights can of course also be connected with the rest of the Easy-Line range.

A **timer** is now also available in the Easy-Line range. Connect the timer to the system and garden, terrace or driveway will be lit up for 8 hours and afterwards turned off for 16 hours, enabling you to enjoy the warm cosy lights while you are at home and save on the electrical bill while you are out. You can of course always choose to turn on the lights again during the 16 hour interval.

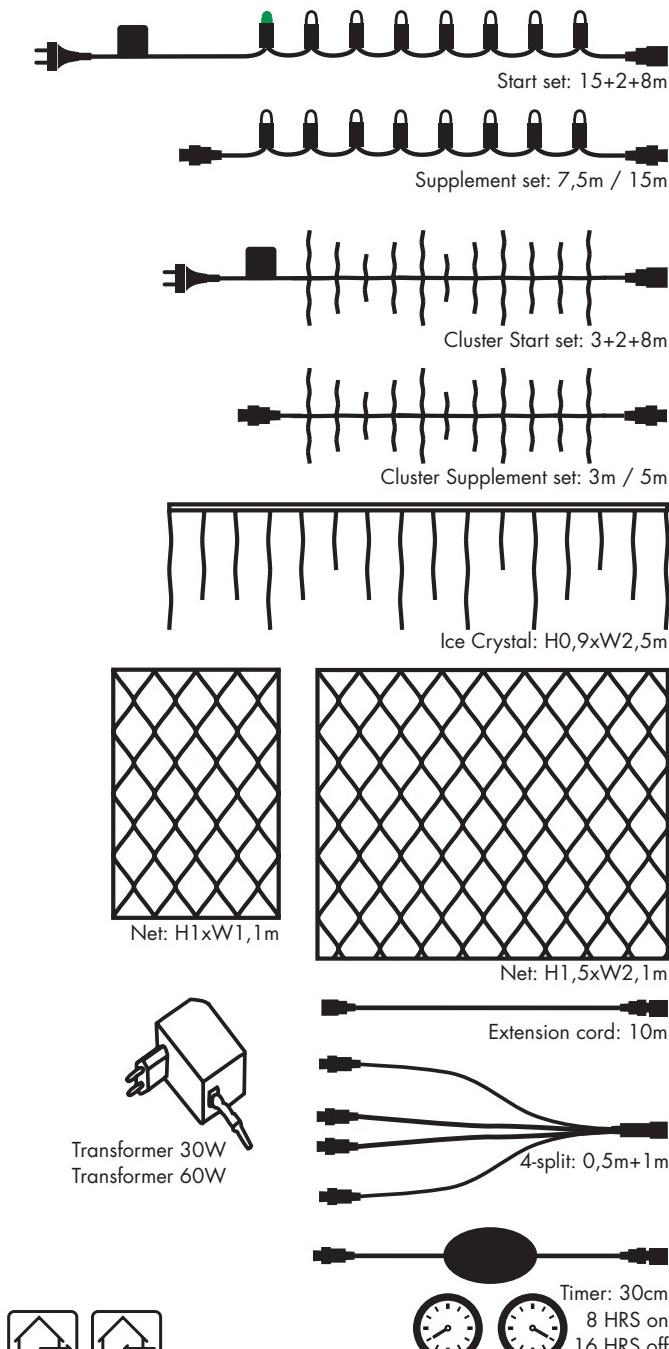

A green LED is mounted on each Easy-line start set to indicate the use of an energy saving light decoration. That's what we call **GREEN ENERGY**.

## EASY-LINE

Extendable 24V system.

A start set contains: 1 x 30W IP64 transformer, 8m leadwire and 1 x 100 LEDs.  
Also available as shop floor display solution.

# TECH-LINE

Complete system for light decorations  
230V (no transformer)

- **SAVE UP TO 90% OF NORMAL POWER CONSUMPTION**
- **UP TO 50,000 HOURS OF LIGHT**
- **CONNECT UP TO 4,000 LEDs**

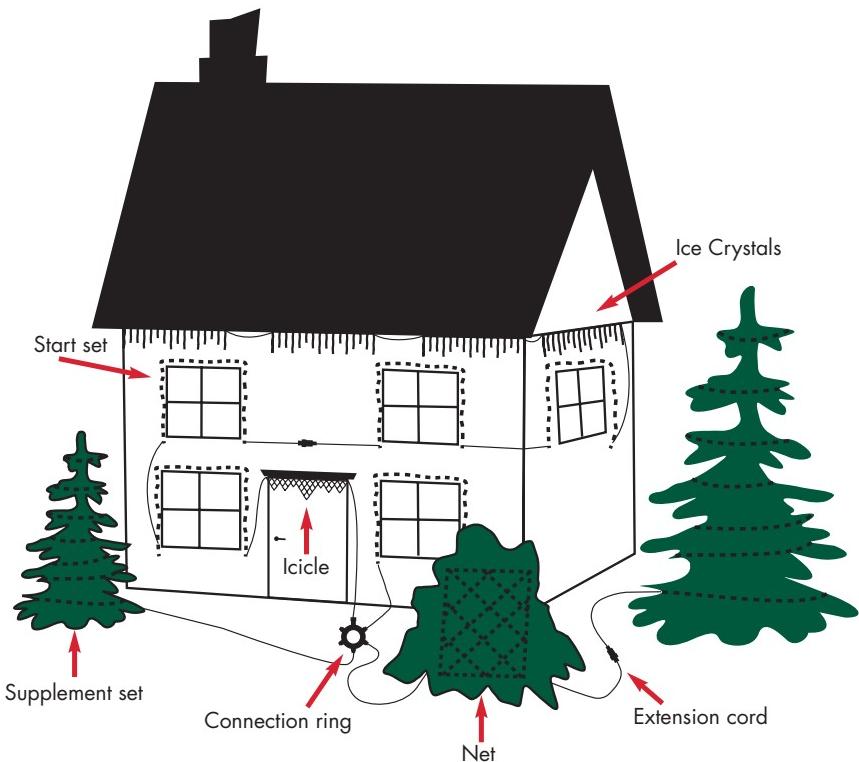

With Tech-Line light decorations from Sirius you can extend your system every year.

Connect light chains, nets or ice crystals by the connector and take your lights in different directions over windows or shrubs – all on just one cable. The only limit is that you may use at most 100 m cable or 4,000 LED lights in the same socket.

#### **Tech-Line Flash**

Tech-Line also comes with an exciting flashing function. The flash light chain features 1 ice white flashing LED every 50 cm. This gives a striking and highly decorative effect. The flash light chain can be used with the entire Tech-Line assortment.

Tech-Line is also available as shop floor display solution.

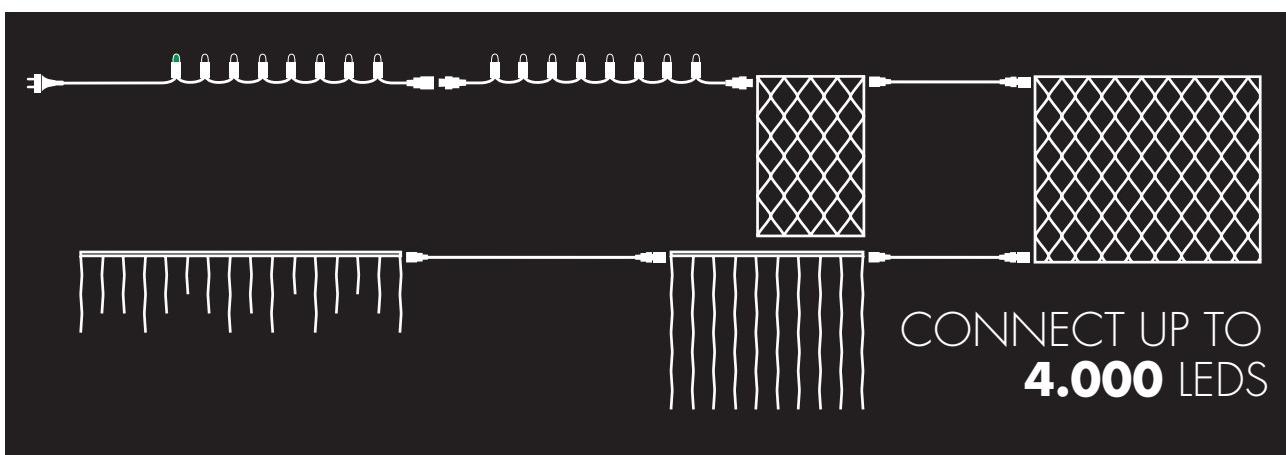

## TECH-LINE

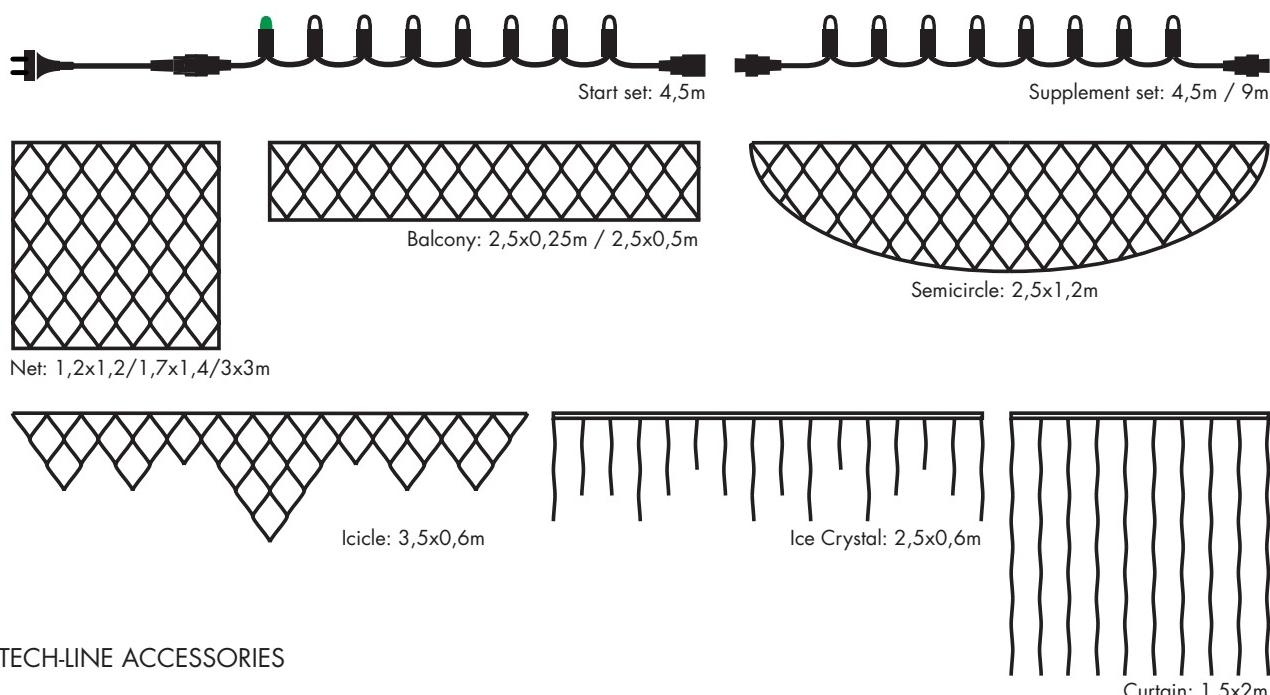

Extendable system - extend the light chain up to 4,000 lights (max 100 meters). Begin with the start set and extend as you like. By using a connector ring or the 2/3-split you can use the light chain in different directions.

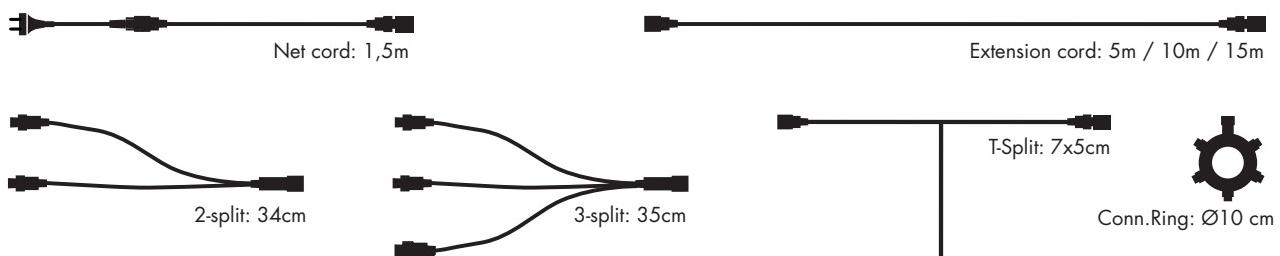

A green LED is mounted on each Tech-line start set to indicate the use of an energy saving light decoration. That's what we call **GREEN ENERGY**.

# DAVID

Light decorations with warm white LEDs. A traditional green light chain that can be used indoor and outdoor for all decoration purposes.

A timer is now also available in the David range. Connect the timer to a light chain, net, ice crystal or curtain and it will be lit up for 8 hours and afterwards turned off for 16 hours, enabling you to enjoy the warm cosy lights while you are at home and save on the electrical bill while you are out. You can of course always choose to turn on the lights again during the 16 hour interval.

David with flash can be set to eight different functions including one steady.

# TIME-LINE

Time-Line is the new battery operated range of light chains with timer for outdoor use.

With Time-Line there is no dependency on plugs and long lead wires and therefore no limitations to where the lights can be placed. Also, due to the timer function the light chains will light up for 6 hours and then turn off for 18 hours, enabling the light to last all Christmas without change of batteries. You can of course always choose to turn on the lights again during the 18 hour interval.

## TIME-LINE

Outdoor battery operated light chains and net with timer. Batteries not included.

Timer:  
6 HRS on  
18 HRS off

# THE SIRIUS COLLECTION

- comes in 4-coloured boxes

Sirius' blue colour boxes in high quality and simple tasteful design unify all items and give the Sirius collection a stylish and very salable expression in the stores. Space management and successful exposure is made easy with the stable, yet delicate gift boxes as well as our new display solutions attracts a lot of attention, having proved to boost sales significantly.

All low and high voltage products are delivered with an extensive user manual in six languages and inside our designer gift boxes you can also find a nice colour leaflet. The leaflet features inspiration and ideas as well as various information about the particular range.

Sirius takes great pride in design, functionality as well as display of our products for yet another beautiful and successful Christmas season.

SHINING MOMENTS

## SIRIUS CHRISTMAS

Some say that Christmas in fact is a celebration of light. Could you imagine Christmas evening without having a beautiful decorated tree illuminating your living room?

Sirius decoration lights are much more than your regular light chain. They are designed to capture and express the Christmas spirit. Simply brilliant!

### SIRIUS CHRISTMAS INTERIOR

Garden lights are an integrated part of Christmas. So why not make something spectacular, funny, captivating, elegant... You can easily decorate your entire garden with Sirius lights without spending your entire Christmas budget on electricity. All our lights are equipped with energy saving LEDs and approved for outdoor use.

Welcome to  
SIRIUS  
SHINING MOMENTS
